Code: The Hidden Language of Computer Hardware and ...

Code: The Hidden Language of Computer Hardware and Software is a book by Charles Petzold that seeks to teach how personal computers work at a hardware and software level. In the preface to the 2000 softcover edition, Petzold wrote that his goal was for readers to understand how computers work at a concrete level that "just might even rival that of electrical engineers and programmers". The idea of writing the book came to him in 1987 while writing a column called "PC Tutor" for PC Magazine.

Books by Charles Petzold

"Escape codes let you "escape" from the humdrum, routine interpretation of a sequence of codes and move to a new interpretation. As we'll see in later chapters, shift codes and escape codes are common when written languages are represented by binary codes." — Charles Petzold, Code: The Hidden Language of Computer Hardware and Software
