The Honda started easy but required 30 seconds of warm up time at that temp to run smooth. It would surge until after 30 seconds. In warm weather there is no surging. The Honda engine is also quieter for some reason. In fairness I also have a twin 24HP Intek on my DYT4000. Never a problem with that engine.

Honda Engines....just how good are they?

Home Depot has a lawn mower with the Honda GCV160 Electric start version engine. They also have a pressure washer with the Honda GCV160 engine. I have a disability that makes it difficult to pull the starter rope. I would like to get the electric start on the pressure washer. My local Honda bike shop service center said they use different blocks.
