Rice Cooker Size Guide

Rice cookers of different sizes are available for household and commercial use: • For household use, 3-cup and 6-cup rice cookers are commonly used. • For commercial use, you can get larger 10-cup and 20-cup rice cookers. • While describing the size of a rice cooker, the cup provided with it is ...

How To Choose The Right Size Rice Cooker

Rice cookers are usually sold as 5-cup, 7-cup or 10-cup size models and so on, referring to raw rice. That usually gives you an idea of how little or what the minimum raw rice amount is, as well as the maximum (capacity). For instance, if you're looking for a rice cooker for two people, the more appropriate size for everyday cooking would be a 5-cup.

How to Measure Rice For Rice Cookers - The Spruce Eats

CAPACITY COUNTS. When selecting a rice cooker—any kind of rice cooker—capacity is a biggie. Cookers tend to come in three-cup, six-cup, and 10-cup capacities. The capacity of a cooker indicates how much cooked rice it holds. So don't put three cups of dry rice in a three-cup cooker; it'll make up to three cups of cooked rice.

A Guide to Rice Cookers | SimplyRecipes.com

This is important because rice cookers come in various sizes. A 3-cup rice cooker is the smallest capacity that is common for major brands such as Panasonic, Tiger, and Zojirushi. The next common size up is a 5-cup and the biggest size (for household use) is 10 cups. For some brands, there are 4-cups and 8-cups available.

HOW TO CHOOSE YOUR PERFECT RICE COOKER!!

For singles to a small family (2-3 people), a 3-cup rice cooker would be a good size. For a mid-sized family (4 to 6 people), a 5-cup rice cooker would be appropriate assuming you have average eaters in your family.
