I've worked for toshiba for a short period of time many years ago, before the 1560 erra. if the 1560 is the same as the earlier models, from memory i believe it is test mode 8-70. test mode 8-69 is for setting the pm period, like 80,000 copies. so if you do not want the pm to shows up again, set the pm period to 0.
